

LAVASOFT

Ad-Aware® ENTERPRISE 2.1

Powerful anti-spyware and anti-virus for a secure network.

Malware attacks continue to grow more sophisticated and stealthy in an attempt to infiltrate business networks and capture confidential information. Today's large corporations have no option than to fight the war against spyware and viruses. Nearly nine out of 10 U.S. organizations experience computer security incidents in a year's time, survey results show; viruses and spyware head the list of attack types, according to research from the U.S. FBI Computer Crime Survey.

Secure your corporate network with Ad-Aware Enterprise 2.1, the highest level of protection against today's cyber threats with anti-spyware and anti-virus in one seamless application. Ad-Aware Enterprise 2.1 offers all of the features of Ad-Aware 2008 Pro, combined with a centralized, efficient management console that puts the power of privacy protection into the hands of your IT professionals.

Protect Your Privacy with the Original Anti-Spyware!

Reduce the risk of costly malware attacks in a corporate environment by allowing your IT professionals to centrally manage Ad-Aware on all network clients.

Safeguard your corporate security with advanced options that monitor deceptive applications, detecting them before they integrate into a PC and attack confidential information.

Use the Internet with peace of mind as Ad-Aware actively shields you and your business from dangerous intrusions and prying eyes, with real-time detection against over a million cyber threats, including viruses, spyware, Trojans, bots, and rootkits.

Increase employee productivity and enhance computer performance by identifying and removing malicious applications that eat up memory and steal bandwidth.

Know that your organization is protected from the latest cyber threats with software and threats updates throughout your license duration, as well as priority online customer support, 24-hours a day, 7 days a week.

Key Features

- Powerful Ad-Aware 2008 core engine
- Anti-spyware and anti-virus protection
- Centralized Management System
- Extended threat Detection Database
- Enhanced rootkit removal system
- Ad-Watch real-time monitor
- Advanced CSI technology
- Ad-Watch RegShield
- Ad-Watch Connect
- Scheduler
- Customizable scans
- User-friendly console interface
- Advanced command line interface

System Requirements: Client

- **Processor:** P600
- **RAM:** Operating system + 150 MB
- **Hard Disk:** 150 MB free space recommended
- **Operating systems:** Windows Vista (32- and 64-bit), Windows XP (Home and Pro), Windows Server 2003, Windows 2000 Pro
- **Web browsers:** Internet Explorer (5.5 or higher), Firefox (1.5 or higher), Opera (9 or higher)

System Requirements:

Enterprise Server

- **RAM:** Operating system + 24 MB
- **Hard disk:** 200 MB free disk space
- **Operating systems:** Windows 2000 Pro, 2000 Server, 2003 Server, XP (Home/Professional)
- **Internet connection:** Optional; for downloading definition files
- **Mail server (SMTP) access:** Optional; for sending notifications by e-mail

System Requirements:

Enterprise Console

- **Operating systems:** Windows Vista (32-bit), Windows XP (Home and Pro), Windows Server 2003, Windows 2000 (Pro and Server)
- Ad-Aware Enterprise server service installed

Ad-Aware Enterprise Console Features

- Improved malware detection and removal across networks
- Simplify installation and maintenance, threat management, monitoring, and removal from a Centralized Management System.
- Custom detection option for TAI ratings provides more targeted scan results.

- New Microsoft standard deployment, configuration and uninstallation.
- Scan one or more clients over the network.
- Set single or multiple client automatic scans with the Scheduler.
- Improved network traffic handling.
- View all registered and active clients.
- Monitor Definition File versions and perform updates on all client computers.
- Update client software using .msi files and Windows group policies.
- Monitor spyware and malware detection logs.
- Monitor the console server status.
- Specify notifications for events such as Definitions File updates and network scans.
- IT-friendly interface allows for effective management of malware detection and removal.

Key Features in Ad-Aware 2008 Pro

- **Seamless Anti-Virus and Anti-Spyware Protection** – Our powerful anti-spyware software now includes extended anti-virus protection.
- **Extended Threat Detection** - Protection from more than 1.2 million virus and malware threats with the new extended anti-virus engine.
- **Enhanced Rootkit Removal System** – Guard against hidden threats attempting to access your system with our amplified rootkit removal technology.
- **Advanced Code Sequence Identification (CSI) Technology** –Secure your network with powerful and precise detection of embedded malware, including Trojans, worms, spyware, and other forms of deceptive malware.
- **Ad-Watch Real-Time Monitor** – Immediate detection of malware, spyware, and viruses means deceptive applications can be safely removed before they are able to cause damage to a PC.
- **Process Watch Module** –View an in-depth snapshot of all running processes and quickly stop known offenders.

About Lavasoft AB

- Established in 1999
- Private company
- Headquarters in Gothenburg, Sweden
- 4,000 partners in over 120 countries
- 300 million Ad-Aware downloads worldwide

The Lavasoft Mission

The Lavasoft mission is to deliver high quality security software solutions that protect individual computer users and business networks worldwide from compromising and intrusive privacy threats.

The Lavasoft Vision

Our vision is that every computer user, regardless of economic status or geographic location, has the power to control their individual privacy and security. We strive to promote an environment of ethical change in the spyware industry to uphold our ideals of social and corporate consciousness.

An estimated 79 percent of enterprise PCs in the US are infected with some form of spyware at any given time.
