Product Information

ABBYY® PDF Transformer 3.0

Convert. Create. Adjust.

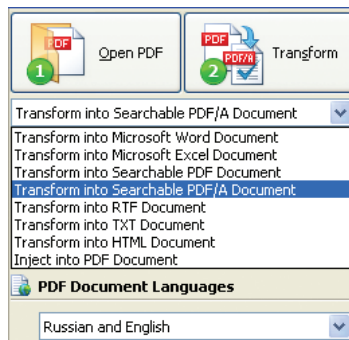

All-in-One tool for easy and fast work with PDFs

ABBYY PDF Transformer 3.0 allows users to easily and efficiently work with PDF files. Any type of PDF, including scanned PDF files, can be converted into MS Office formats. The user can also create searchable PDFs directly from within MS Office or adapt existing PDFs. ABBYY's intelligent technologies ensure accuracy, save endless retyping and reformatting, and deliver the right results in no time at all!

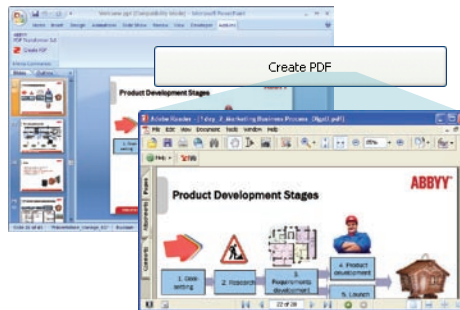

Convert PDFs into editable and searchable files

- **Conversion of all types of PDF into MS Word, Excel®, HTML, TXT, and RTF** – enhanced accuracy based on the latest ABBYY OCR technology (*FineReader Engine 9.0*).
- **NEW: Recreation of document structure** – with its original look, headers, footers, footnotes, page and line numbering, active links and hyperlinks placed in the appropriate MS Office application's fields, thanks to ABBYY innovative ADRT™ technology.
- **NEW: Support for 186 languages** – with automatic language detection.
- **Comfortable viewer-style interface** – with practical tools to improve the conversion results where necessary.

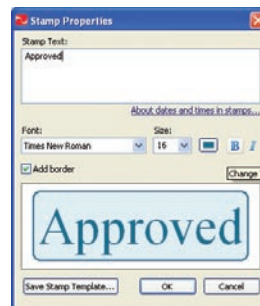

Create PDFs

- **Directly from MS Office applications** – via buttons in Word, Excel®, PowerPoint® and Visio®.
- **From any application via print function** – with many options like meta data, watermarks, headers, footers, and others.
- **NEW: From several different applications into one PDF**
- **NEW: Support for MS Office 2007 formats** (DOCX, XLSX, PPTX, VSDX).
- **NEW: Saving in PDF/A format** – for long term archiving.
- **Assigning passwords and security settings**

Adjust and change PDFs

- **Conversion of any type of PDF into Searchable PDFs** with **NEW** functions:
 - **Redaction** – protect information with a “blackout” redaction tool which deletes sensitive data;
 - **MRC Compression** – for up to 1:10 file size reduction;
 - **Page Stamps** and **Bates Stamping** – for better identification of PDFs.
- **NEW: Conversion of any PDF into PDF/A format.**
- **NEW: Append a new PDF to an existing PDF.**
